Introduction

Thanks for using Sidify Apple Music Converter for Windows!

[Sidify Apple Music Converter for Windows](#) is an useful all-in-one iTunes DRM audio converter that enables you to remove the DRM protection from **Apple Music songs**, **iTunes M4P music** and **iTunes/ Audible Audiobooks**, in order to enjoy them offline, at any time, as well as convert local music files to various other formats. Now, it supports converting iTunes music to MP3, M4A, FLAC or WAV format at up to 10X speed. More importantly, this powerful DRM removal tool can also retain Artwork and Metadata (title, artist, album, year, track number and genre).

With its modern-looking and intuitive interface, users can easily handle Sidify Apple Music Converter for Windows at the first sight. This software is embedded with almost all the required features that you will look forward to in a high quality audio converter.

Key Features

- Remove DRM from Apple Music,
- iTunes M4P Music & Audiobooks;
- Convert DRM-ed music to MP3/AAC/FLAC/WAV format;
- Convert at up to 10X faster speed;
- Support batch conversion;
- Keep ID3 Tags;
- Support 12 languages;
- Fully compatible with the latest version of iTunes;
- Support the latest Windows 10.

System Requirements

- Windows XP, Vista or Windows 7, 8, 10 or later version;
- 1GHz processor or above;
- 512 megabytes (MB) or higher of RAM;

Purchase Sidify Apple Music Converter for Windows

Tip: To buy a license key for Sidify Apple Music Converter for Windows, visit our [online store](#).

1. Why should I buy Sidify Apple Music Converter for Windows?

In a nutshell, Sidify Apple Music Converter for Windows is a shareware, and the trial version has limits that enables users to convert first **3 minutes** for each audio. After you purchase our product, you will receive your Registration Email and Registration key to unlock the trial version limitation.

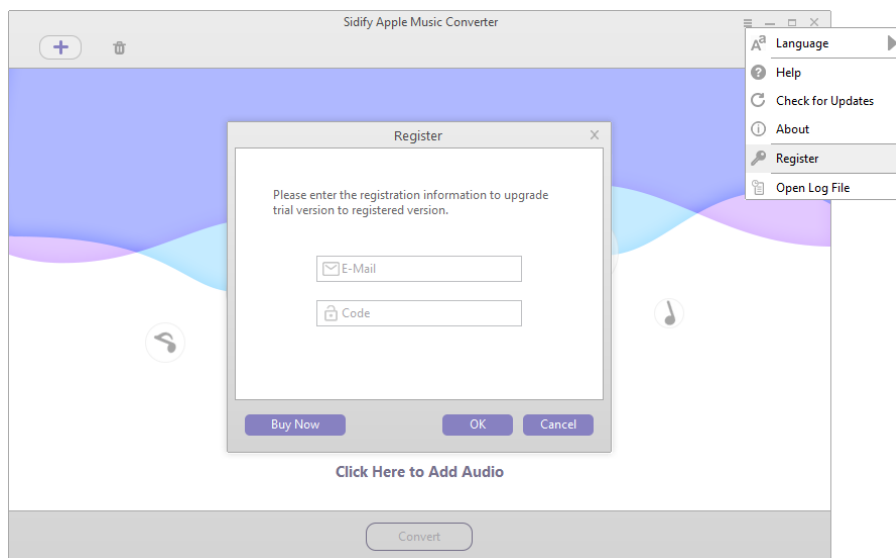

2. What's Your Benefits after Registered?

- You can unlock all of the functionality.
- Lifetime FREE upgrades to the latest versions of the same product.

Register Windows version of Sidify Apple Music Converter

Step 1: Launch Sidify Apple Music Converter and click **Menu button**  on the upper-right corner. Then select **Register** option in the drop down list.

Step 2: Please fill the blanks with Registration Email and Registration key, then click **OK** button.

Tutorial of Sidify Apple Music Converter for Windows

Step 3: Once finishing the Registration process, the limitation of the trail version will be removed.

Tips:

1. Make sure your computer is well-connected with the Internet.
2. We suggest you should just copy & paste the Registration information into the popup dialog.
3. Make sure both Registration Email and Registration key are provided by our company after purchasing. If you have not paid, please click **Buy now** to get a license.
4. Please Make sure Registration Email and Registration key you entered are both completely and correctly, otherwise an error message will pop up as below:

Installation

To install this product, please refer to the following steps:

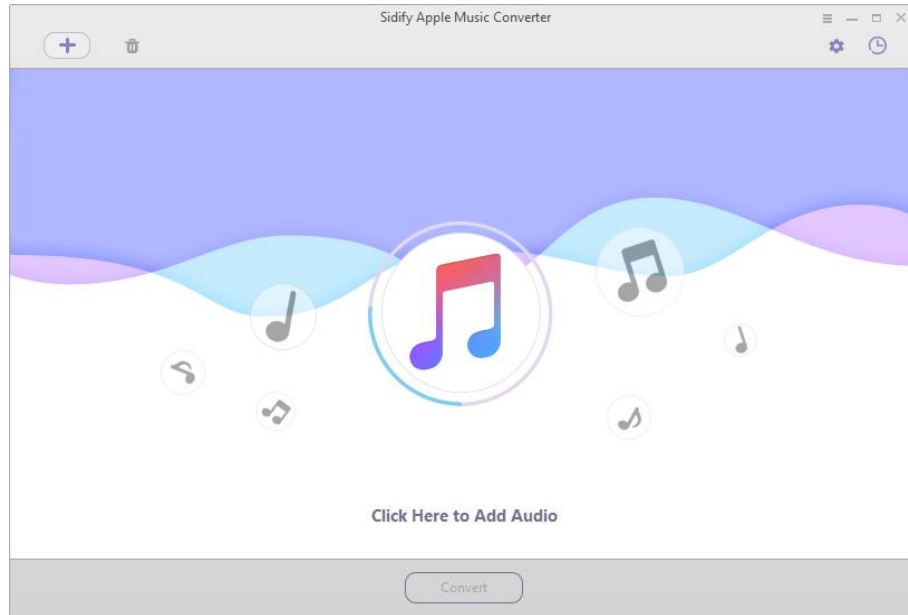

1. Download the latest version of Sidify Apple Music Converter through [Download Center](#).
2. Double click the sidify-amc.exe file to accomplish a "single-click install".

3. After well-installed, you can double click Sidify icon to launch the program.

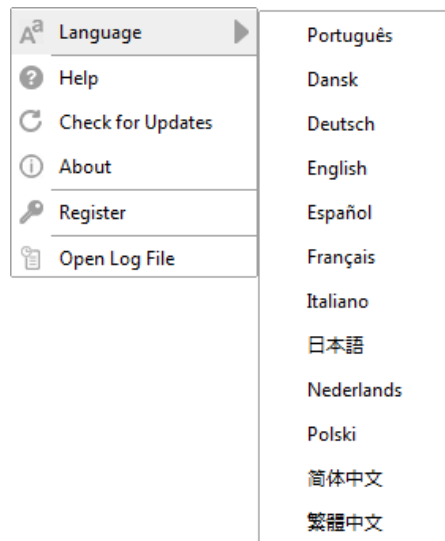

Main Interface

After launching Sidify Apple Music Converter for Windows, you will see the main interface like this:

Menu

When clicking the **Menu Settings** button  in the upper-right of Sidify interface, you will see the menu list as following picture. Here you can choose the language you want to use, check for update when a new version is available, and open online-help page of Sidify Apple Music Converter, etc.

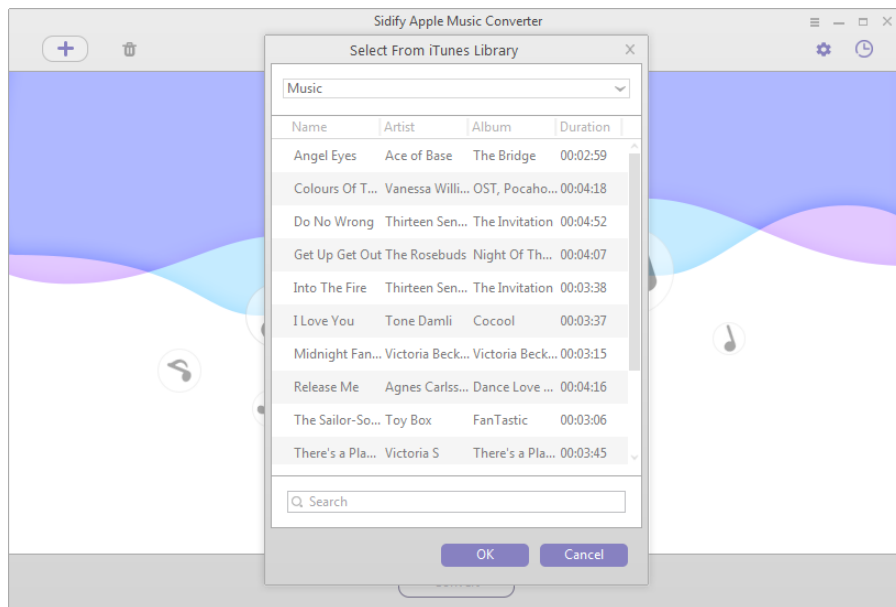

Tutorials

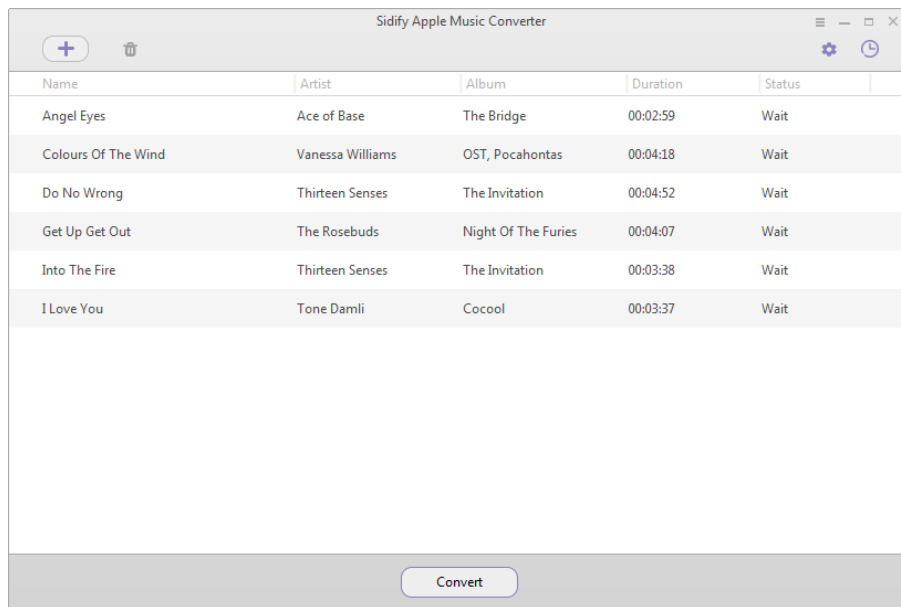

- Import Music Files
- Delete Music Files
- Choose Output Settings
- Customize Output Path
- Convert Music Files
- Check Conversion History

Import Music Files

Step 1: Click "+" or "Click Here to Add Audio" button on Sidify interface, then the adding window would pop up.

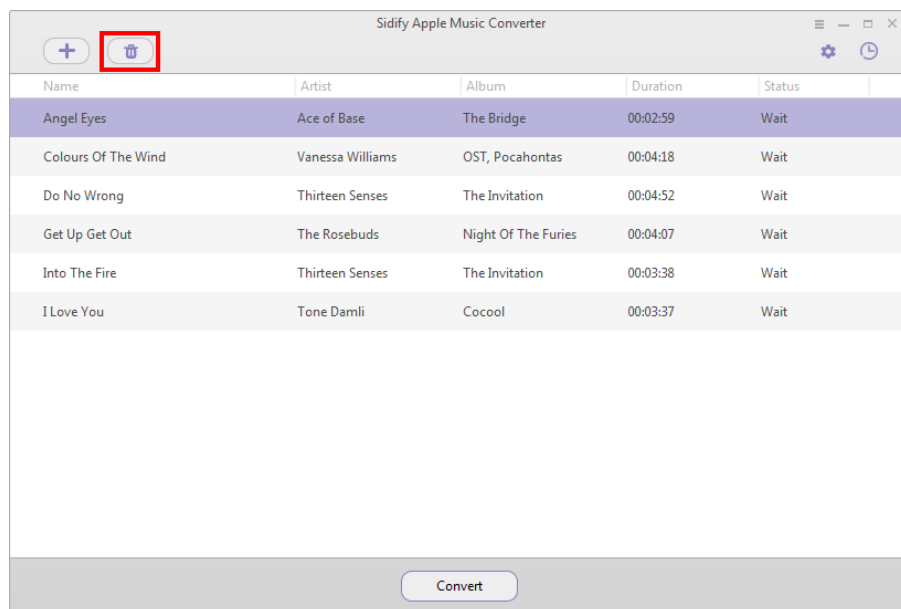

Step 2: Select the files you want to add. Click the **OK** button, then you can see all the files you chose are shown in the file list.

Tips: Sidify also supports batch adding music by pressing "**Ctrl+A**", "**Shift**" or "**Ctrl**" on your keyboard, so that you can convert multiple tracks at one time.

Delete Music Files

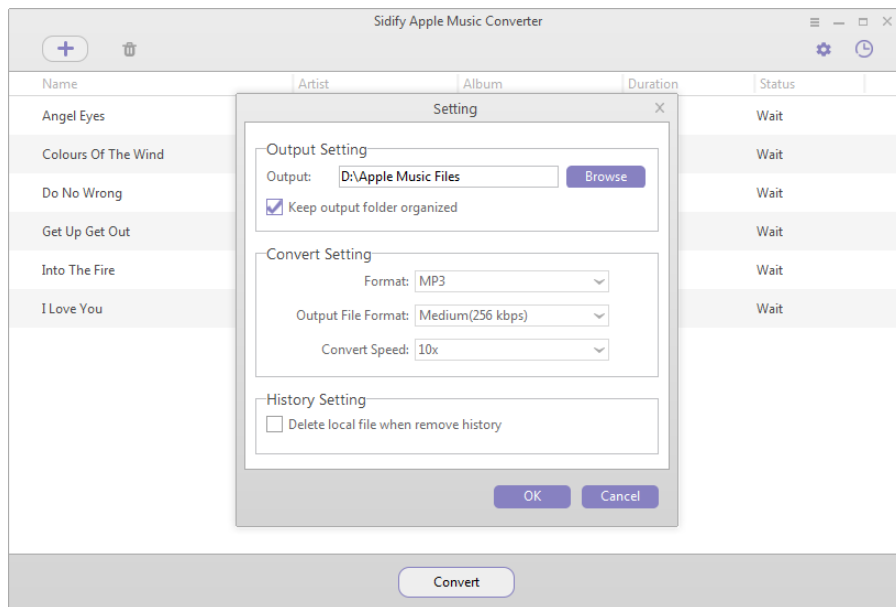

Select the files you want to delete if needed firstly. Then Click the  button to delete.

Choose Output Settings

After importing music to Sidify, you can click setting to choose output format, output quality or conversion speed. Finally, click OK to apply.

Customize Output Path

In this setting window, you can click **Browse** button to customize the output directory as required. If you needn't to change the output path, the converted files will be saved under the default folder.

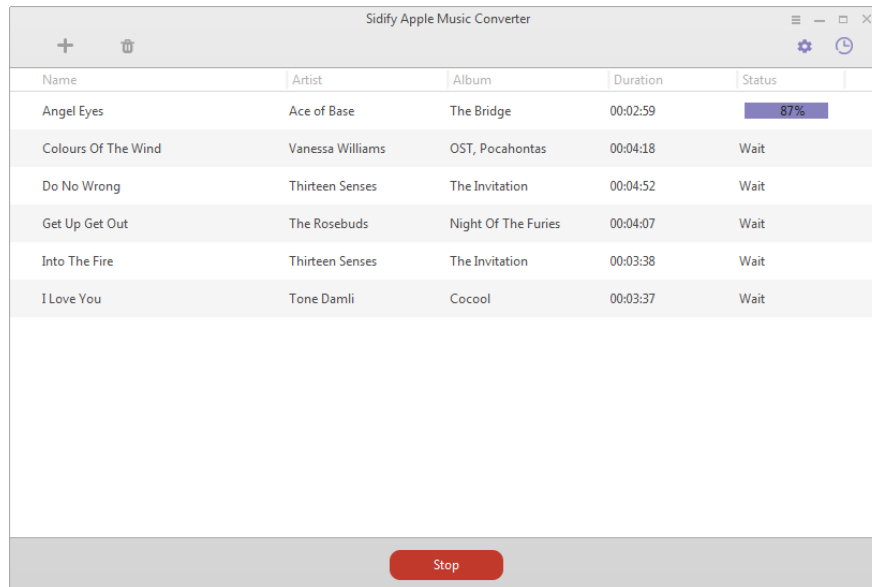

Convert Music Files

Once everything is ready, just click the **Convert** button to start converting.

Tutorial of Sidify Apple Music Converter for Windows

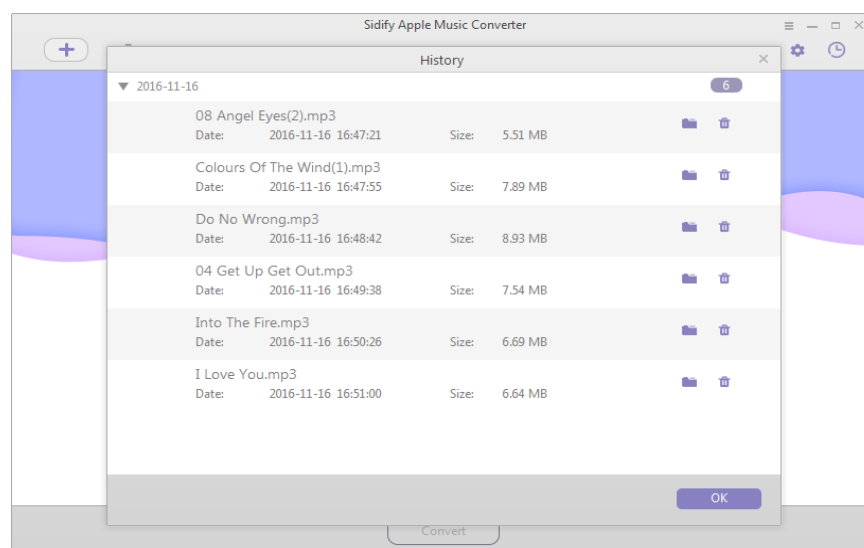

If you're new user of Sidify program who haven't registered Sidify, you'll see a prompt message as below after clicking **Convert** button. But if you have registered Sidify, this window won't pop up.

Check Conversion History

When the conversion is completed, all the songs will be saved under target folder automatically. You can also find the well-converted audio files through  button.
