Introduction

Thank you for using Sidify Music Converter Windows version.

[Sidify Music Converter Windows version](#) removes DRM from Spotify streaming music and offers different settings to define the output audio quality to meet your needs on Windows. With this powerful DRM audio removal tool, you can easily download and save Spotify music in plain MP3, AAC, FLAC and WAV format, and then, enjoy the Spotify songs with your music player freely.

In the meanwhile, encoded with innovative DRM decrypting technology, Sidify music converter Windows version is able to convert Spotify audio files at fast conversion speed, and also keep original ID tags in the output file after conversion.

Key Features

- Decrypt and convert Spotify song or playlist to MP3, AAC, FLAC or WAV.
- Preserve 100% of your original audio quality after conversion.
- Preserve ID tags after conversion; Fast conversion speed.
- Support variable bitrates (VBR) - better quality with smaller file size.
- Support 22 languages and more.
- Highly compatible with the latest Windows 10 and Spotify.

System Requirements

- Windows XP, Vista, 7, 8, 10 (32-bit & 64-bit).
- 512M or higher RAM.
- 1G Hz Intel processor or above CPU.
- 1024*768 resolution display or higher Monitor.

PURCHASE & REGISTRATION

- Purchase Windows Version of Sidify Music Converter for Spotify
- Register Windows version of Sidify Music Converter for Spotify

Purchase Sidify Music Converter Windows version

Quick Link: To buy a license key for Windows version of Sidify Music Converter for Spotify at \$39.95, click [Here](#).

1. Why should I buy Windows version of Sidify Music Converter for Spotify?

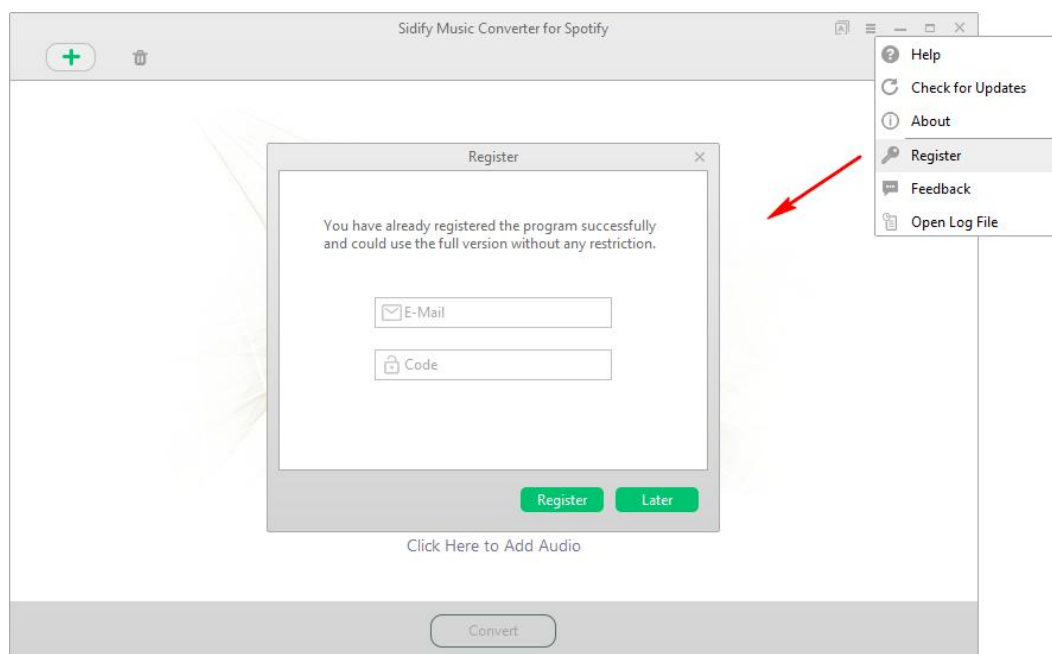

Sidify Music Converter Windows version is a shareware, and the trial version has limits that enables users to convert first **3 minutes** for each audio for sample testing. After purchasing the program, you will be provided a license with your user ID and key code which will unlock the trial version limitation.

2. What benefits do I have after registration?

- You can convert Spotify songs without time limitation.
- You can enjoy lifetime FREE upgrades to the latest versions of the same product.
- You can enjoy FREE technical supports.

Register Sidify Music Converter Windows version

Step 1: Run Sidify Music Converter. First you should click the menu, and then select the **Register** option to register the program.

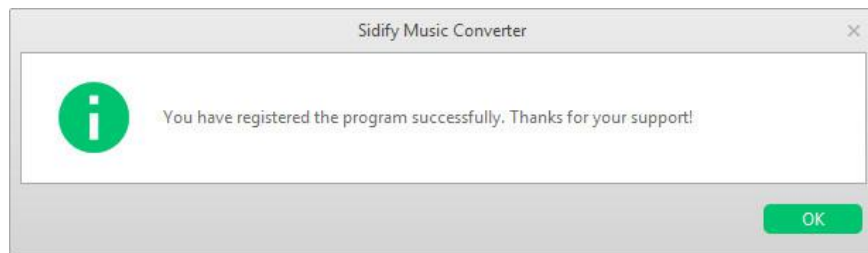

Tutorial of Sidify Music Converter for Spotify (Windows)

Step 2: Please fill the input blanks with Email address and key code. You can copy & paste them in the window.

Step 3: After you finished the registration, the limitation of the trial version will be removed.

Note #1:

Make sure both the user ID and key code are the same as what we provided on the confirm email after you purchased the program. If not, an error message will pop up as below:

Note #2:

Since 2017/1/19, Sidify's products have adopted a new registration mechanism. New users who purchased Sidify Music Converter are required to register the program with **email address** and key code. For old users, it's still available to register with **registration name** and **key code**.
