## INTRODUCTION

Thank you for using Sidify Music Converter Windows version.

[Sidify Music Converter Windows version](#) removes DRM from Spotify streaming music and offers different settings to define the output audio quality to meet your needs on Windows. With this powerful DRM audio removal tool, you can easily download and save Spotify music in common MP3, AAC, and WAV format, and then, enjoy the Spotify songs with your music player more freely.

In the meanwhile, encoded with innovative DRM decrypting technology, Sidify music converter Windows version is able to convert Spotify audio files in 5X fast conversion speed, and also keep original ID tags in the output file after conversion.

## KEY FEATURES

- Decrypt and convert Spotify song or playlist to MP3, AAC or WAV.
- Preserve 100% of your original audio's quality after conversion.
- Preserve ID tags after conversion; 5X conversion speed.
- Support variable bitrates (VBR) - better quality with smaller file size.
- Highly compatible with the latest Windows 10 and Spotify.

## SYSTEM REQUIREMENTS

- Windows XP, Vista, 7, 8, 10 (32-bit & 64-bit)
- 512M or higher RAM
- 1G Hz Intel processor or above CPU
- 1024\*768 resolution display or higher Monitor

# PURCHASE & REGISTRATION

- Purchase Sidify Music Converter Windows version
- Register Sidify Music Converter Windows version

## PURCHASE SIDIFY MUSIC CONVERTER WINDOWS VERSION

Quick Link: To buy a license key for Sidify Music Converter Windows version, click [Here](#).

### 1. Why should I buy Sidify Music Converter Windows version?

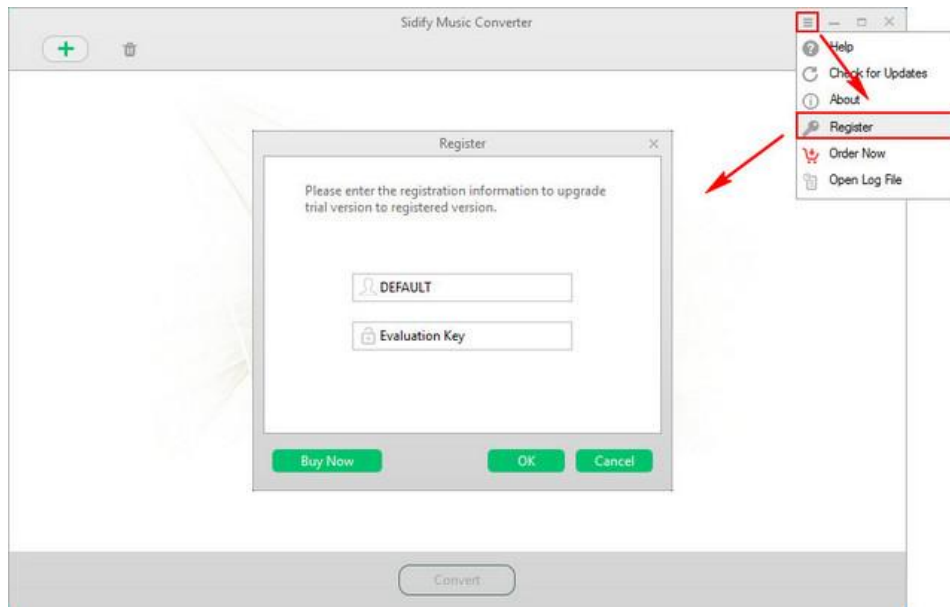

Sidify Music Converter Windows version is a shareware, and the trial version has the limitation that you can only convert first 10 songs. After you purchase the program, you will be provided a license with your user ID and key code which will unlock the trial version limitation.

### 2. What benefits do I have after registration?

- Convert Spotify songs without any limitations.
- FREE upgrades to the updated versions of the same product released.

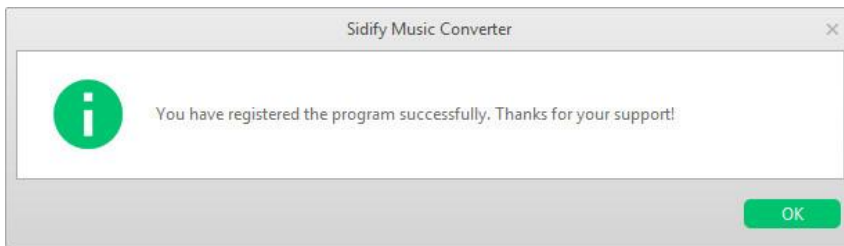

## REGISTER SIDIFY MUSIC CONVERTER WINDOWS VERSION

Step 1: Run Sidify Music Converter. First you should click the menu, and then select the **Register** option to register the program.

Step 2: Please fill the input blanks with user ID and key code. You can copy and paste them in the window.

Step 3: After you finished the registration, the limitation of the trial version will be removed.

**Notice:**

Make sure both the user ID and key code are the same as what we provided on the confirm email after you purchased the program. if not, an error message will pop up as below:

## INSTALLATION & INTERFACE

- Installation
- Main Interface
- Converting Interface
- Menu

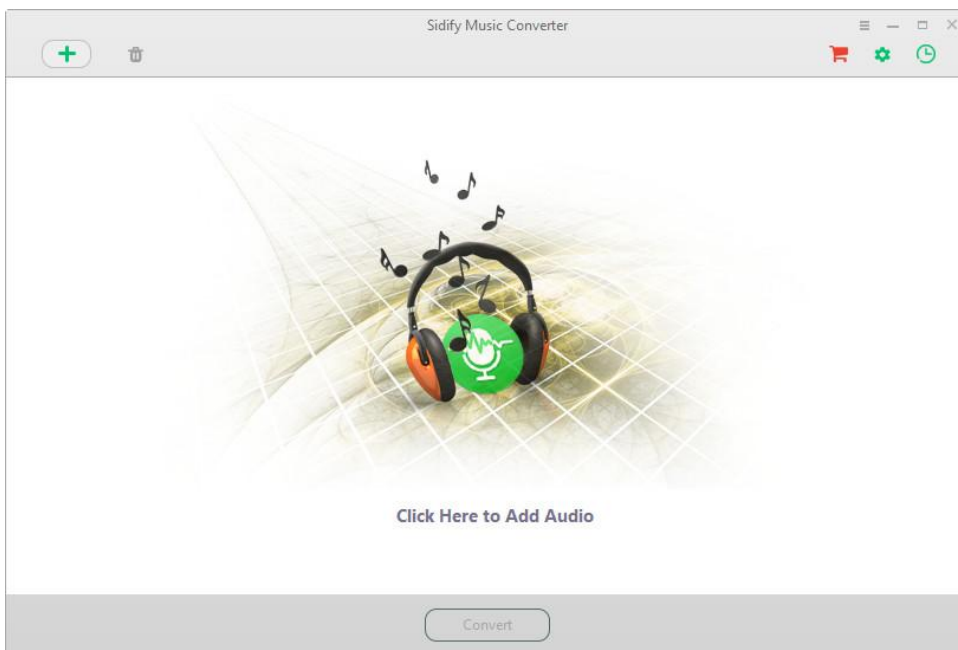

### INSTALLATION

To install this product, please follow the steps below:

1. Download Sidify Music Converter Windows version from [Download page](#).
2. Double click the installation file sidify-music-converter.exe to start installing the program on your computer.
3. Follow the instruction to finish the installation.
4. Then you will see there is an icon of the program on desktop.

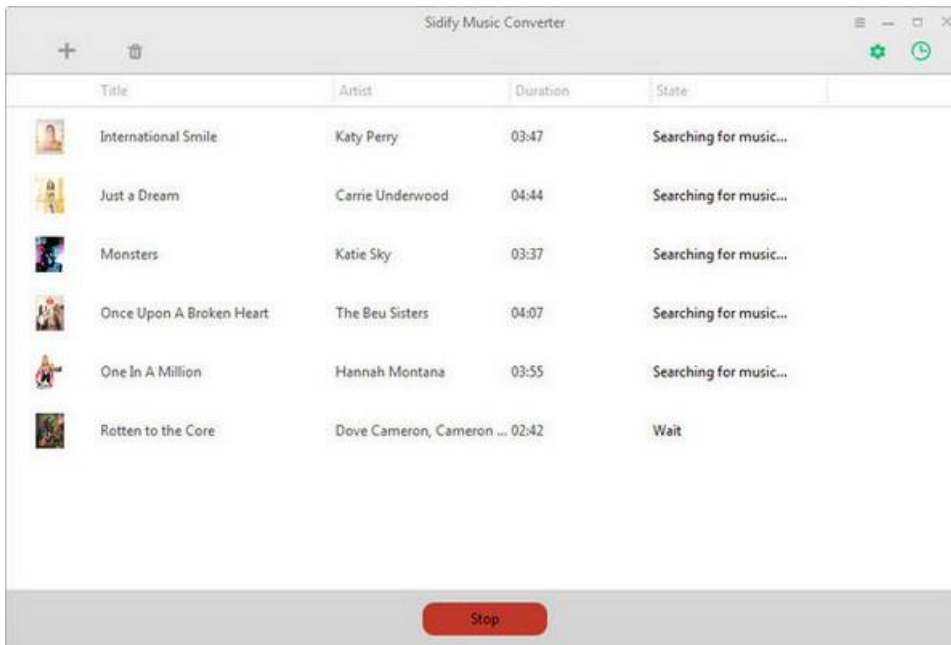

### MAIN INTERFACE

After you launch Sidify Music Converter Windows version, you will see the main interface below:

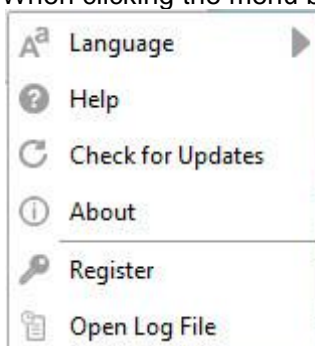

## CONVERTING INTERFACE

After clicking the **Convert** button, you will see the converting interface below:

## MENU

When clicking the menu button  , you will see the menu list like this:

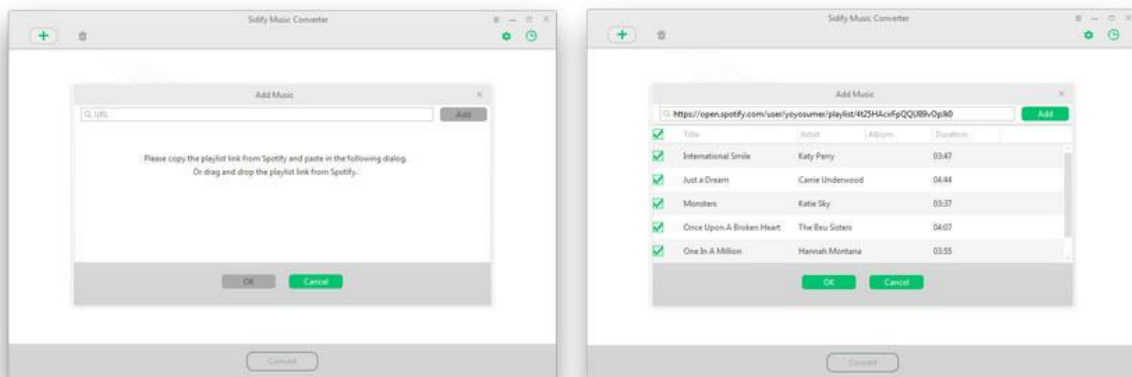

- Import Spotify Music
- Delete Spotify Music
- Adjust Output Settings
- Convert Spotify Music
- Check History Records

### IMPORT SPOTIFY MUSIC

Step 1: Click the  button, then you will see a pop-up window which indicates you to copy and paste the link of song or playlist of Spotify to the dialog.

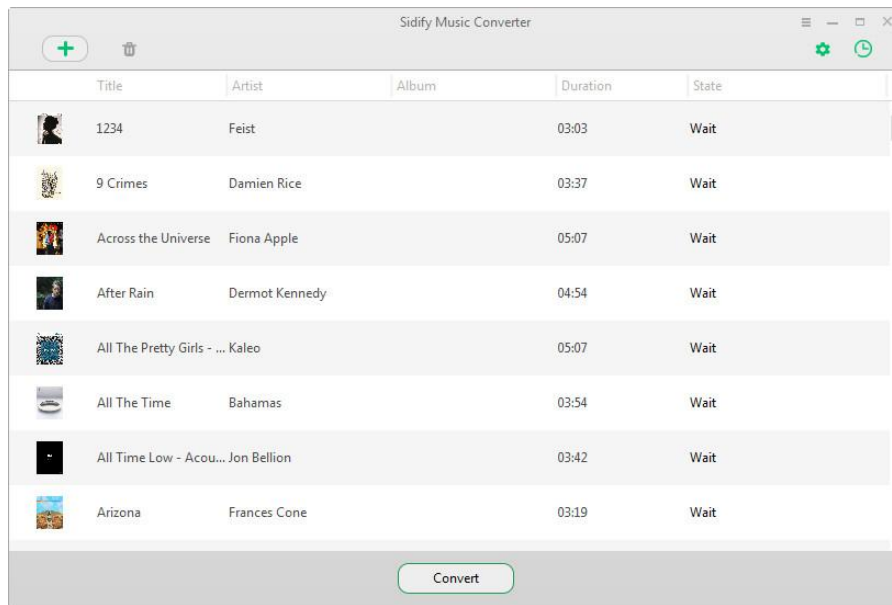

Step 2: After the tracks being added, you can uncheck the songs that you don't want to convert before clicking **OK**.

### DELETE SPOTIFY MUSIC

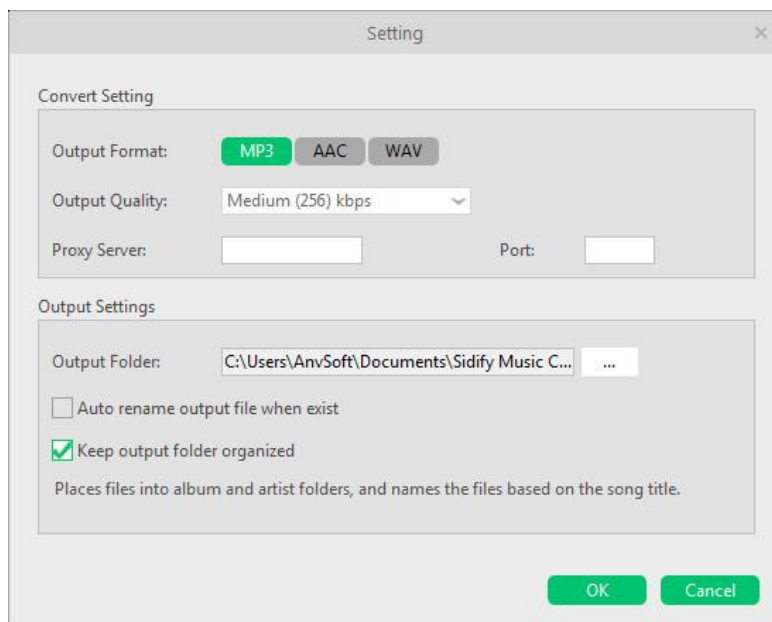

After clicking **OK**, all tracks that you need to convert will be listed as below. If you still want to delete some files now, just select the file, then click .

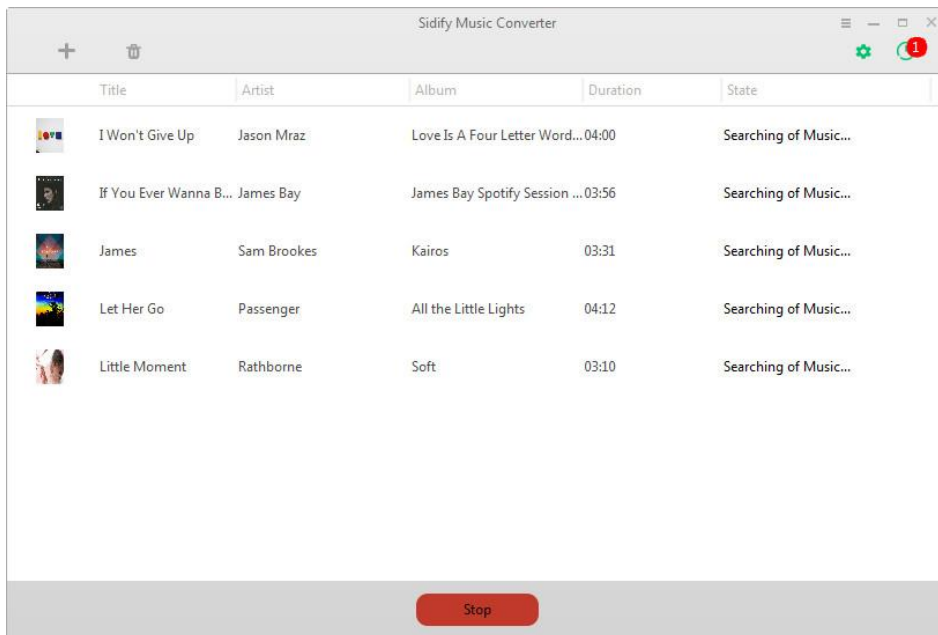

## ADJUST OUTPUT SETTINGS

Click the  button on the main interface, and then there will pop-up a window allowing you to set convert settings and output settings. In Convert settings, you can choose output format (MP3, AAC or WAV), output quality (320kbps, 256kbps, 128kbps). In the output settings, you could change the output folder as required. If you needn't to change output path, the output audio files will be saved under the default folder. And select whether keep output folder organized based on the track number, and the song title.

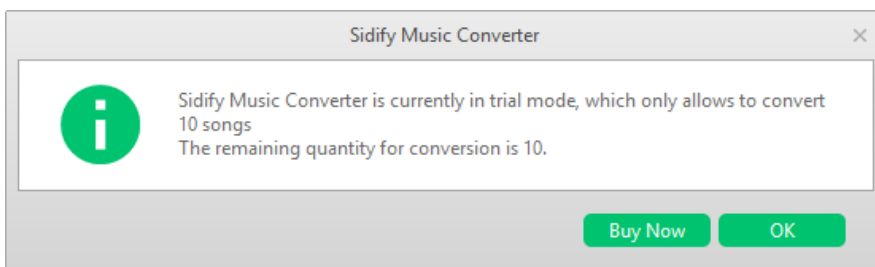

## CONVERT SPOTIFY MUSIC

When all customization are done, click "**CONVERT**" button to start conversion.

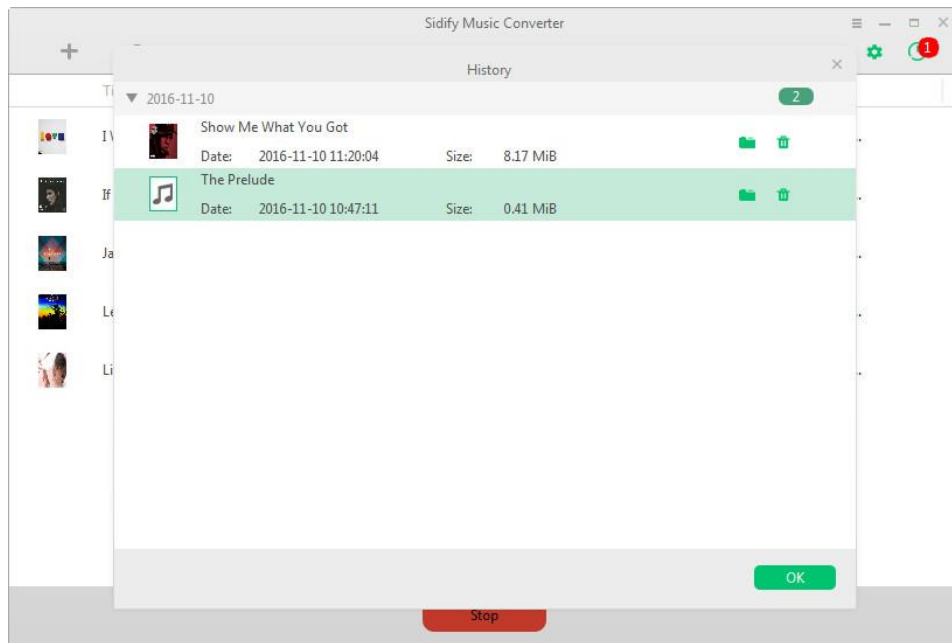

If you haven't purchased the program and use this product for the first time, when you click the **Convert** button, you will see prompt message as follows:

## CHECK HISTORY RECORDS

After conversion, you can click  button to find the converted audio files.
